

1	Esab Sturdy Cantilever Machine CROSSBOW	Cutting Capacity
		Plate Size: (i) 1.5m (width) x 3.2m (Length) and (ii) 1.5 m (width) x 6.3m (Length) in two variants. Cutting capacity with Oxyfuel: Up to 50mm thk MS Cutting capacity with Plasma:: Up to 16mm (MS/SS) Machine proposed is without the Cutting Table
2	New Eagle Gantry Type CNC	Cutting Capacity
		Plate Size: 1.5m (width) x 3m (Length) Cutting capacity with Plasma: Up to 16mm (MS/SS) (No Oxyfuel here) This Machine is Integrated with the Cutting Table (Water Table)
3	iSGM Gantry Type CNC	Cutting Capacity
		Plate Size: (i) 2.5m (width) x 6.3m (Length) and (ii) 2.5 m (width) x 13m (Length) in two variants Cutting capacity with Oxyfuel: Up to 150mm thk MS Cutting capacity with Plasma:: (i) Up to 16mm (MS/SS) with A120 (120A) Plasma, And, (ii) Up to 32 mm (MS/SS) with m2-200i (200A) Plasma Machine proposed is without the Cutting Table
4	COMBIREX CXL Gantry Type CNC	Cutting Capacity
		Plate Size: (i) Width: 2m to 4m (ii) Length: Maximum cutting length can be achieved by increasing the Rail length Cutting capacity with Oxyfuel: Up to 300mm thk MS Cutting capacity with Plasma:: (i) 15mm to 50mm using Plasma of 100A to 400A Machine proposed is without the Cutting Table
